REAL ESTATE DOMAIN PORTFOLIO

The World's Largest Known Real Estate Listings Domain Portfolio
Including More Than 2,600 Geo-Targeted Domain Names

"It is extremely rare for such a pre-assembled platform of virtual real estate to become available."

- Monte Cahn

Founder & President, Moniker

Covering 99% of U. S. Cities with a population greater than 35,000, this collection will provide an internet platform to capitalize on lead generation for the real estate, mortgage and related industries.

Currently, almost 50% of the annual 1.2 Billion Google searches on the phrase "Real Estate" are related to the portfolio, giving instant access to the \$25 Trillion dollar U. S. Real Estate Market.

In addition, 90% of today's real estate buyers begin their search online, which makes this 10 year strategically acquired portfolio a once-in-an-internet-lifetime opportunity to own a lucrative piece of cyber real estate.
