DETERMINATION OF SPECIAL FLOOD HAZARD AREA

FOR

Apn 061-120-049

Shasta County, Ca

DETERMINATION:

Based on DISCLOSURESAVE's review of the Flood Insurance Rate Maps published by the Director of the Federal Emergency Management Agency, the following determination is made:

THE PROPERTY IDENTIFIED IN THIS REPORT IS NOT LOCATED IN A FEMA DESIGNATED SPECIAL FLOOD HAZARD AREA

DISCUSSION:

Pursuant to Section 1103 of the California Civil Code, this determination by DISCLOSURESAVE is based on a review of maps including the Flood Insurance Rate Maps published by the Director of the Federal Emergency Management Agency.

The Federal Emergency Management Agency (FEMA) is the federal agency with the responsibility to produce Flood Insurance Rate Maps. These maps are used to determine whether structures, such as private residences are contained within designated Special Flood Hazard Areas. This information is then used to determine the need for obtaining flood insurance through the National Flood Insurance Program and also for floodplain management purposes. The fact that a structure lies with a designated Special Flood Hazard Area does not guarantee that it will necessarily flood; nor does the fact that a structure lies outside a flood zone guarantee that it will not flood.

For more information about flood zones, please contact your local FEMA Regional Office or access this department's Internet address through the World Wide Web at <http://www.fema.gov/>.

**DETERMINATION OF AN AREA OF POTENTIAL
FLOODING DUE TO DAM INUNDATION**

FOR
Apn 061-120-049
Shasta County, Ca

DETERMINATION:

Based on DISCLOSURESAVE's review of maps approved by the Office of Emergency Services, the following determination is made:

**THE PROPERTY IDENTIFIED IN THIS REPORT IS NOT LOCATED IN AN OFFICIALLY
DESIGNATED AREA OF POTENTIAL FLOODING
DUE TO DAM INUNDATION**

DISCUSSION:

Pursuant to Section 1103 of the California Civil Code and Section 8589.5 of the California Government Code, this determination by DISCLOSURESAVE is based on a review of inundation maps showing areas of potential flooding in the event of sudden or total failure of any dam. Section 8589.5 of the California Government Code requires that inundation maps be prepared for certain dams and debris basins. Should there be a catastrophic breakdown of a basin or dam during peak capacity, the dam inundation maps indicate the areas that could potentially be inundated by this breakdown. Potential causes of catastrophic breakdowns include heavy rainfall, watershed runoff, foundation failure, earthquakes, etc. Not all California dams have dam inundation maps associated with them, so there may be circumstances where specialized consultants may need to be consulted for detailed analyses.

Maps approved pursuant to section 8589.5 of the California Government Code are kept on file with the Department of Water Resources and the Office of Emergency Services. For more information, please contact the California Office of Emergency Services in Sacramento or access this department's Internet address, <http://www.oes.ca.gov/>.

DETERMINATION:

Based on DISCLOSURESAVE's review of maps issued by the Director of Forestry and Fire Protection for the State of California, the following determination is made:

***THE PROPERTY IDENTIFIED IN THIS REPORT IS NOT LOCATED
IN AN OFFICIALLY DESIGNATED
VERY HIGH FIRE HAZARD SEVERITY ZONE***

DISCUSSION:

Pursuant to Section 1103 of the California Civil Code and Section 51183.5 of the California Government Code, this determination by DISCLOSURESAVE is based on a review of maps issued by the Director of Forestry and Fire Protection for the State of California

Section 51178 of the California Government Code requires that the California Director of Forestry and Fire Protection identify and prepare maps showing certain Very High Fire Hazard Severity Zones. Placement within these zones is based on criteria that includes, but is not limited to, structure density, weather, topography, fuels, and other relevant considerations. Buyers are subject to fines for failing to provide for proper brush clearance and other preventive measures in these zones. **DETERMINATION OF
WILDLAND AREA THAT MAY CONTAIN
SUBSTANTIAL FOREST FIRE RISKS AND HAZARDS
FOR
Apn 061-120-049
Shasta County, Ca**

DETERMINATION:

Based on DISCLOSURESAVE's review of maps issued by the Director of Forestry and Fire Protection for the State of California, the following determination is made:

***THE PROPERTY IDENTIFIED IN THIS REPORT IS LOCATED
IN AN OFFICIALLY DESIGNATED WILDLAND AREA THAT MAY CONTAIN
SUBSTANTIAL FOREST FIRE RISKS AND HAZARDS***

DISCUSSION:

Pursuant to Section 1103 of the California Civil Code, Sections 4102, 4125, 4136 of the California Public Resources Code, and Section 13811 of the Health and Safety Code, this determination by DISCLOSURESAVE is based on a review of maps including those issued by the Director of Forestry and Fire Protection for the State of California

Section 4125 of the California Public Resources Code requires that the California Director of Forestry and Fire Protection identify and prepare maps showing certain State Responsibility Areas that designate wildland areas that may contain substantial forest fire risks and hazards. These State Responsibility Areas are subject to the requirements of Section 4291 of the California Public Resources Code governing any person who own, controls, operates leases, or maintains a building or structure in a designated area in reference to firebreaks, trimming of trees, installation of chimney screens and regulation of these matters by the State Forester.

In the exercise of its responsibility for identifying State Responsibility Areas, the California Department of Forestry and Fire Protection is also responsible for identifying lands outside of cities and federal lands for which the state takes primary financial responsibility for protecting natural resources from fire damage. These designated locations are determined in part on vegetation and other natural resource characteristics within the area. Public Resources Code Section 4291 imposes a duty on the seller of real property to disclose whether the property is within a State Responsibility Area and that the buyer must take specific fire mitigation measures to be in compliance with California law. For more information, please contact the California Department of Forestry and Fire Protection in Sacramento or access this department's Internet address through the World Wide Web at, <http://www.fire.ca.gov/>.

DETERMINATION OF EARTHQUAKE FAULT ZONE

FOR

Apn 061-120-049

Shasta County, Ca

DETERMINATION:

Based on DISCLOSURESAVE's review of maps issued by the Division of Mines and Geology of the Department of Conservation, the following determination is made:

THE PROPERTY IDENTIFIED IN THIS REPORT IS NOT LOCATED IN AN OFFICIALLY DESIGNATED EARTHQUAKE FAULT ZONE

DISCUSSION:

Pursuant to Section 1103 of the California Civil Code and Sections 2621.9 and 2622 of the California Public Resources Code, this determination by DISCLOSURESAVE is based on a review of maps issued by the Division of Mines and Geology of the Department of Conservation

The California State Geologist has the responsibility for mapping earthquake fault zones. Fault zones lie on either side of known faults and are generally a quarter mile or less in width. Faults can be categorized as active or inactive and are subject to continual revision as new findings dictate. Just as with FEMA flood zones, lying outside of the fault zone boundary does not ensure that there is no danger from earthquake-generated ground shaking, but it is presumed that there is a greater statistical danger within the zone. More information may be obtained from the California Department of Conservation, Division of Mines and Geology through their nearest office or through the world wide web address, <http://www.consrv.ca.gov/>.

FOR

Apn 061-120-049

Shasta County, Ca

DETERMINATION:

THE PROPERTY IDENTIFIED IN THIS REPORT:

**A. DOES NOT HAVE A MAP RELEASED TO DETERMINE IF IT IS LOCATED IN
LANDSLIDE ZONE,**

**B. DOES NOT HAVE A MAP RELEASED TO DETERMINE IF IT IS
LOCATED IN A LIQUEFACTION ZONE.**

DISCUSSION:

Pursuant to Section 1103 of the California Civil Code, Sections 2621.9, 2622, and 2296 of the California Public Resources Code, this determination by DISCLOSURESAVE is based on a review of maps issued by the Division of Mines and Geology of the Department of Conservation,

The California State Geologist and the Division of Mines and Geology of the Department of Conservation, have the responsibility for mapping seismic hazard zones and must identify areas of potential danger to the public from ground failure caused by earthquake ground shaking. Radon Disclosure Hazard Statement

This statement applies to the following property:

APN: 061-120-049
Address: Apn 061-120-049
Shasta County, Ca
Order #: 377630
Date of Issue: 5\12\2008

According to the EPA Map of Radon Zones, this county is: ZONE 3

The EPA Map of Radon Zones was developed using five factors to determine radon potential: indoor radon measurements; geology; aerial radioactivity; soil permeability; and, foundation type. Radon potential assessment is based on geologic provinces. Radon Index Matrix is the quantitative assessment of radon potential. Confidence Index Matrix shows the quantity and quality of the data used to assess radon potential. Geologic Provinces were adapted to county boundaries for the Map of Radon Zones.

Sections 307 and 309 of the Indoor Radon Abatement Act of 1988 (IRAA) directed EPA to list and identify areas of the U.S. with the potential for elevated indoor radon levels. EPA's Map of Radon Zones assigns each of the 3,141 counties in the U.S. to one of three zones based on radon potential:

Zone 1 counties have a predicted average indoor radon screening level greater than 4 pCi/L (pico curies per liter) (red zones)	Highest Potential
Zone 2 counties have a predicted average indoor radon screening level between 2 and 4 pCi/L (orange zones)	Moderate Potential
Zone 3 counties have a predicted average indoor radon screening level less than 2 pCi/L (yellow zones)	Low Potential

This report is for informational purposes only.

Radon Map can be reviewed at the following address: www.epa.gov/radon/zonemap/california.htm

FORMER MILITARY ORDNANCE SITE DISCLOSURE SUPPLEMENT

SUBJECT PROPERTY: Apn 061-120-049, Shasta County, Ca

Based on maps provided by the federal government, the Subject Property is determined:

TO BE within one (1) mile of a Former Military Ordnance Site

NOT TO BE within one (1) mile of a Former Military Ordnance Site

The federal government has published maps depicting all former military ordnance sites in the United States. The Defense Environmental Restoration Program was established to remove hazardous and harmful materials left at those sites. In conjunction with this program, the United States Army Corps of Engineers has evaluated the risks of the materials left at the sites. An Inventory Project Report ("INPR") containing a risk code is generated for sites, which have been evaluated. Those risks are evaluated by applying a Risk Assessment Code ("RAC"), which scores the level of hazard at the sites. RAC includes five (5) categories of harm with a one (1) being the most harmful and five (5) being the least harmful. The categories are as follows:

RAC 1 – Imminent Harm

RAC 2 – Action required to mitigate hazard

RAC 3 – Action required to evaluate potential threat (includes search of archive and site investigation)

RAC 4 – Action required to evaluate potential threat (archives search)

RAC 5 – No Action Required

The hazards referred to above could include, but are not limited to the following:

1. **Hazardous , Toxic or Radioactive Waste (HTRW)** -Groundwater, soils, etc. contamination which may result in a clean-up program to a "superfund" project. HTRW includes underground storage tanks, pcb-containing electrical transformers, abandoned drums, etc.
2. **Ordnance and Explosives (OE)**- Consists of either (1) or (2) below:
 1. Ammunition, ammunition components, chemical warfare materials or explosives which have been lost, abandoned, discarded, buried, fired, thrown from demolition pits or burning pads, or shot off ranges. Such ammunition, ammunition components and explosives are no longer under accountable record control of any DOD organization or activity.
 2. Explosive Soil. Explosive soil refers to mixtures of explosives in soil, sand, clay, or other solid media at concentrations such that the mixture itself is explosive.
3. **'Building Debris/Debris Removal (BD/BR)**-Hazardous structures, buildings, etc.

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

MOLD SUPPLEMENT

Background

In 2001, California Senate Bill 732 was passed, which amended the transfer disclosure statement, to include a disclosure about mold. It also provides for a revision of the Environmental Hazards Booklet by the California Department of Toxic Substances Control to include a chapter on mold (Chapter VI).

A real estate agent is required to use the new transfer disclosure statement form. An agent should also provide a buyer with a current copy of the above-referenced Environmental Hazards Booklet.

Buyers should be advised that if there is any question as to whether mold exists, they may elect to have a mold inspection conducted by a qualified expert.

About Mold

Mold growth on surfaces can often be seen in the form of discoloration, frequently green, gray, brown, or black, but also white and other colors are possible. Warping floors and discoloration of walls and ceilings can be indications that moisture problems exist. Molds can release tiny spores into the air and often have a musty or earthy odor

The following are common sources of indoor moisture that may lead to mold problems:

- Past flooding
- Roof leaks
- Plumbing leaks
- Damp basement or crawl space
- Improper lawn irrigation procedures
- Steam build-up from showers or cooking
- Humidifiers
- Clothes dryers exhausting indoors

NOTICE OF SUPPLEMENTAL PROPERTY TAX BILL

In accordance with Section 1102.6(c) of the California Civil Code, it is the sole responsibility of the seller of any real property, or his or her agent, to deliver to the prospective purchaser a disclosure notice of the following:

California property tax law requires the Assessor to revalue real property at the time the ownership of the property changes. Because of this law, you may receive on or two supplemental tax bills, depending on when your loan closes.

The supplemental tax bills are not mailed to your lender. If you have arranged for your property tax payments to be paid through an impound account, the supplemental tax bills will not be paid by your lender. It is your responsibility to pay these supplemental bills directly to the Tax Collector.

As stated above, California law requires that the Assessor re-appraise property upon a change of ownership or the completion of new construction. This re-appraisal results in a supplemental tax assessment which is based on the difference between the new value and the old value of the property, multiplied by the property's Ad Valorem tax rate. The resulting Supplemental Tax amount is then pro-rated, based upon the number of months remaining in the fiscal year in which the event occurred.

The number of tax bills which will be issued also depends on the date the event occurred. If the change of ownership or new construction is completed between January 1st and May 31, the result will be two supplemental assessments levied on two supplemental tax bills. If the event occurs between June 1st and December 31st, then only one supplemental bill will be issued.

For a complete explanation and estimation of the supplemental tax bills affecting this parcel you can go to www.californiataxdata.com and order a complete notice of supplemental Tax Report

NOTICE OF SUPPLEMENTAL PROPERTY TAX BILL

In accordance with Section 1102.6(c) of the California Civil Code, it is the sole responsibility of the seller of any real property, or his or her agent, to deliver to the prospective purchaser a disclosure notice of the following:

California property tax law requires the Assessor to revalue real property at the time the ownership of the property changes. Because of this law, you may receive one or two supplemental tax bills, depending on when your loan closes.

The supplemental tax bills are not mailed to your lender. If you have arranged for your property tax payments to be paid through an impound account, the supplemental tax bills will not be paid by your lender. It is your responsibility to pay these supplemental bills directly to the Tax Collector.

If you have any question concerning this matter, please call your local Tax Collector's Office.

As stated above, California law requires that the Assessor re-appraise property upon a change of ownership or the completion of new construction. This re-appraisal results in a supplemental tax assessment which is based on the difference between the new value and the old value of the property, multiplied by the property's Ad Valorem tax rate. The resulting Supplemental Tax amount is then pro-rated, based upon the number of months remaining in the fiscal year in which the event occurred.

The number of tax bills which will be issued also depends on the date the event occurred. If the change of ownership or new construction is completed between January 1st and May 31st, the result will be two supplemental assessments levied on two supplemental tax bills. If the event occurs between June 1st and December 31st, then only one supplemental bill will be issued.

SPECIAL ALERT

New Mandatory Transfer Fee Disclosure Required 1/1/08

1. Private Transfer Fee

This is commonly known as a "Private Transfer Tax". It is a fee imposed by a private entity such as a property developer, home builder, or homeowner association, when a property within a certain type of subdivision is sold or transferred. A private transfer fee may also be imposed by an individual property owner. Private transfer fees are different from city or county Documentary Transfer Taxes. Private Transfer Fees may apply in addition to government Documentary Transfer Taxes that are due upon sale or transfer of the property.

California Civil Code Section 1098 defines a "Transfer Fee" as "any fee payment requirement imposed within a covenant, restriction, or condition contained in any deed, contract, security instrument, or other document affecting the transfer or sale of, or any interest in, real property that requires a fee be paid upon transfer of the real property." Certain existing fees such as governmental fees, court ordered fees, mechanic lien fees, common interest development fees, etc. are specially excluded from the definition of "Transfer Fee"

To determine if the property is subject to a Transfer Fee, OBTAIN COPIES OF ALL THE EXCEPTIONS LISTED ON THE PRELIMINARY (TITLE) REPORT FROM THE TITLE COMPANY AND READ THEM TO DETERMINE IF ANY TRANSFER FEES ARE APPLICABLE. Please be aware that private transfer fees may be difficult to identify by simply reading the title report.

Effective January 1, 2008, Civil Code Section 1102.6e requires the Seller to notify the Buyer of whether a private transfer fee applies and if present, to disclose certain specific information about the fee.

Content of Disclosure. Civil Code Section 1102.6e requires the Seller to disclose specific information about any Transfer Fee that may affect the property. Please refer to the legal code or to the C.A.R Form NTF (11/07), provided by the California Association of Realtors, for a standard format to use in making the Transfer Fee Disclosure if you elect to investigate and make this disclosure personally.

How to Determine the Existence of a Transfer Fee. If a Transfer Fee does exist affecting the property, the document creating the fee may be on file with the County Recorder as a notice recorded against the property and should be disclosed in the preliminary (title) report on the property. However, the preliminary (title) report will merely disclose the existence of the documents affecting title, not the content of the documents. The title of a document may also not be sufficient to disclose that a transfer fee is included in its terms. Accordingly Seller should (a) request the title company which issued the preliminary (title) report to provide copies of the documents shown as "exceptions," and (b) review each document to determine if it contains a transfer fee.

2. Documentary Transfer Taxes

This is a government tax imposed by a city or county when a property within the jurisdiction is sold or transferred.(It is commonly known as a "Real Estate Transfer Tax".) It is NOT the same as a private transfer fee, which may be imposed by a private entity such as a property developer, home builder, or homeowner association. However, it is a similar fee due upon closing, calculated based on a percentage of the purchase price.

Disclosure Save Property Tax Report
Report Number:377630

Date: 5/12/2008

Transfer Tax Defined. Under California Revenue and Taxation Code Sections 11911-11929, counties and cities are authorized to impose a tax on the transfer of property located within their jurisdiction. The tax is commonly known by various names, including the Documentary Transfer Tax, or Real Property Transfer Tax, or Real Estate Transfer Tax (hereinafter, the "Transfer Tax").

How Much? The tax is due at closing and payable through escrow. This tax does not expire. All future sales of this property will be charged this tax at close of escrow. The amount of the transfer tax is based on the value or sale prices of the property that is transferred. The county rate is one dollar and ten cents (\$1.10) for each one thousand dollars (\$1.000) of value. The rate for non-charter ("general law") cities is one-half of the county rate and is credited against the county tax due. Charter cities may impose a transfer tax at a rate higher than the county rate.

For any city or county in California, the Transfer Tax rate ("Tax Rate Table") is available at no charge from many sources, most conveniently on the website of the California Local Government Finance Almanac (sponsored by the California League of Cities): <http://www.californiacityfinance.com/PropTransfTaxRates.pdf>

To estimate the transfer tax for the property, multiply the Property's estimated sales price (in thousands of dollars) by the amount shown in the Tax Rate Table for the city and county in which the property is located.

Who Pays? The law states that, "the Transfer Tax must be paid by the person who makes, signs or issues any document subject to the tax, or for whose use or benefit the document is made, signed or issued." In practice, this means that the payment of the Transfer Tax is customarily made by the Seller or the Buyer, or shared by both, depending on the jurisdiction in which the transferred property is located.

Are there any exemptions? The California Revenue and Taxation Code, which provides the statutory authority for counties to impose the transfer tax, specifically exempts from the transfer tax the following transactions:

1. Instruments in writing given to secure a debt.
2. Transfers whereby the federal or any state government, or agency, instrumentality or political subdivision thereof, acquires title to realty.
3. Transfers made to effect a plan of reorganization or adjustment (i) confirmed under the Federal Bankruptcy Act, (ii) approved in certain equity receivership proceedings or (iii) whereby a mere change in identity, form or place of organization is effected.
4. Certain transfers made to effect an order of the Securities and Exchange Commission relating to the Public Utility Holding Company Act of 1935.
5. Transfers of an interest in a partnership (or, beginning January 1, 2000, an entity treated as a partnership for federal income tax purposes) that holds realty, if (i) the partnership is treated as continuing under IRC § 708 and (ii) the continuing partnership continues to hold the realty.
6. Certain transfers in lieu of foreclosure.
7. Transfers, divisions or allocations of community, quasi-community or quasi-marital property between spouses pursuant to, or in contemplation of, a judgment under the Family Code.
8. Transfers by the State of California, or any political subdivision, agency or instrumentality thereof, pursuant to an agreement whereby the purchaser agrees to immediately reconvey the realty to the exempt agency.
9. Transfers by the State of California, or any political subdivision, agency or instrumentality thereof, to certain nonprofit corporations.
10. Transfers pursuant to certain *inter vivos* gifts or inheritances.
