

## HAIG POINT

### Things You Should Know . . .

Haig Point is a private residential community and golf club and many of its members live on the property full time. We all take special pride in the appearance of our grounds and buildings. Your consideration of the facilities and environment is both expected and appreciated.

### Alligators

Part of the allure of the low country is the proximity of the natural environment and the critters that inhabit it. Please note that it is illegal to feed the alligators.

- Exercise caution around the lagoons. Remember, alligators are in their habitat and they are wild.
- Always observe them at a distance.
- When fishing in our lagoons, alligators may be attracted to the activity created while reeling in the fish.
- Be aware when retrieving golf balls gone astray.
- Please respect their home.
